CIRCULAR

Subject: Minor Correction in 18CSMP68 regarding.

Reference: Chairperson BOS in CSE/ISE email dated 04.03.2021

Minor corrections in the descriptions (Instructions) section are made in the laboratory syllabus "MOBILE APPLICATION DEVELOPMENT" (18CSMP68) of 2018 scheme CSE and ISE programmes and the same is mentioned below-

# Existing

- 1. The installation procedure of the Android Studio/Java software must be demonstrated and carried out in groups.
- Students should use the latest version of Android Studio/Java/Kotlin to execute these programs. Diagrams given are for representational purposes only; students are expected to improvise

### To read as

- The installation procedure of the Android Studio/Java software must be demonstrated and carried out in groups.
- 2. Students should use the latest version of Android Studio/Java/Kotlin to execute these programs. Diagrams given are for representational purposes only, students are expected to improvise on them.
- 3. Part B programs should be developed as an application and are to be demonstrated as a mini project in a group by adding extra features or the students can also develop their application and demonstrate it as a mini-project. (Projects/programs are not limited to the list given in Part B).

A syllabus copy is enclosed with this circular for reference to the concerned. Also, corrected CSE/ISE syllabus is made available @ https://vtu.ac.in/b-e-scheme-syllabus/#menu0.

All the Principals of Engineering Colleges are hereby requested to inform these corrections to the faculty who are handling this laboratory.

Encl: As mentioned above

Sd/-

REGISTRAR

To,

All the Principals of the Engineering Colleges under the ambit of VTU Belagavi

## Copy to:

- 1. The Registrar(Evaluation) for information and needful
- 2. The Registrar's Office, VTU, Belagavi, for information.
- 3. The Special Officer, Academic Section, VTU Belagavi, for information.
- The Special Officer CNC section to upload the circular on the VTU web portal.

Develop an Android application using controls like Button, TextView, EditText for designing a calculator having basic functionality like Addition, Subtraction, Multiplication, and Division.

2

. [	SIMPLE CALCULATOR
	Result
	Input <edit text=""></edit>
	7 8 9 7
	4 5 6
3	Create a SIGN Up activity with Username and Password. Validation of password should happen
	<ul> <li>based on the following rules:</li> <li>Password should contain uppercase and lowercase letters.</li> </ul>
	Password should contain letters and numbers.
	<ul> <li>Password should contain special characters.</li> <li>Minimum length of the password (the default value is 8).</li> </ul>
	Minimum length of the password (the default value is 8).
	On successful SIGN UP proceed to the next Login activity. Here the user should SIGN IN using
	the Username and Password created during signup activity. If the Username and Password are matched then navigate to the next activity which displays a message saying "Successful Login" or
	else display a toast message saying "Login Failed". The user is given only two attempts and after
	that display a toast message saying "Failed Login Attempts" and disable the SIGN IN button. Use Bundle to transfer information from one activity to another.
!	SIGNUP ACTIVITY LOGIN ACTIVITY
	SIGNOF ACTIVITY
	Username: Username:
	Password: Password:
	SIGN IN
	SIGN UP
4	Develop an application to set an image as wallpaper. On click of a button, the wallpaper image should start to change randomly every 30 seconds.
	CHANGING WALLPAPER APPLICATION
	ONARONO WALL ALL STATE LOADS
	CLICK HERE TO CHANGE WALLPAPER
	Write a program to create an activity with two buttons START and STOP. On
5	Write a program to create an activity with two buttons START and STOP. On pressing of the START button, the activity must start the counter by displaying the numbers from
	One and the counter must keep on counting until the STOP button is pressed. Display the counter

	value in a TextViewcontrol.		
	COL	UNTER APPLICATIO	PN .
		Counter Value	
	A.	OTIOT	
		START	
		STOP	
6	Create two files of XML and JSON	type with values for	City Name Latitude Lancitude
	Temperature, and Humidity. Develop an	application to create a	n activity with two huttons to parce
	the XML and JSON files which when side by side.	clicked should display	the data in their respective layouts
		PARSING XM	L AND JSON DATA
	PARSING XML AND JSON DATA	XML DATA	JSON Data
		City_Name: Mysore	City_Name: Mysore
	Parse XML Data	Latitude: 12.295	Latitude: 12.295
		Longitude: 76.639	Longitude: 76.639
	Parse JSON Data	Temperature: 22	Temperature: 22
		Humidity: 90%	Humidity: 90%
7	Develop a simple application withone	EditTextso that the user	can write some text in it. Create a
	button called "Convert Text to Speech"	that converts the user in	nput text into voice.
	TEXT TO	SPEECH APPLICAT	TION
	12/1/10	OI LEON AND LIOA	11014
	Co	onvert Text to Speech	
		and the opecon	
8	Create an activity like a phone dialer	withCALLand SAVE	buttons. On pressing the CALL
	button, it must call the phone number a to the phone contacts.	and on pressing the SAV	VE button it must save the number
	to the phone contacts.		

	CALL AND SAVE APPLICATION			
	1234567890 DEL			
	1 2 3			
	4 5 6			
	789			
	CALL SAVE			
	PART - B			
1	Write a program to enter Medicine Name, Date and Time of the Day as input from the user and store it in the SQLite database. Input for Time of the Day should be either Morning or Afternoon or Eveningor Night. Trigger an alarm based on the Date and Time of the Day and display the Medicine Name.			
	MEDICINE DATABASE			
	Medicine Name:			
	Date:			
	Time of the Day:			
	Insert			
2	Develop a content provider application with an activity called "Meeting Schedule" which takes Date, Time and Meeting Agenda as input from the user and store this information into the SQLite database. Create another application with an activity called "Meeting Info" having DatePicker control, which on the selection of a date should display the Meeting Agenda information for that particular date, else it should display a toast message saying "No Meeting on this Date".			

	MEETING INFO
	Pick a date to get meeting info:
	MEETING SCHEDULE
:	Date:
	Time:
	Meeting Agenda:  " * * *  CANCEL OK
	Add Meeting Agenda Search
3	Create an application to receive an incoming SMS which is notified to the user. On clicking this SMS notification, the message content and the number should be displayed on the screen. Use appropriate emulator control to send the SMS message to your application.
	SMS APPLICATION
	Display SMS Number
	Display SMS Message
4	Write a program to create an activity having a Text box, and also Save, Open and Create buttons. The user has to write some text in the Text box. On pressing the Create button the text should be saved as a text file in MkSDcard. On subsequent changes to the text, the Save button should be pressed to store the latest content to the same file. On pressing the Open button, it should display the contents from the previously stored files in the Text box. If the user tries to save the contents in the Textbox to a file without creating it, then a toast message has to be displayed saying "First Create a File".
	FILE APPLICATION
	Create Open
	Save
5	Create an application to demonstrate a basic media playerthat allows the user to Forward, Backward, Play and Pause an audio. Also, make use of the indicator in the seek bar to move the audio forward or backward as required.

.

	MEDIA PLAYER APPLICATION
	Audio Name
6	Develop an application to demonstrate the use of Asynchronous tasks in android. The asynchronous task should implement the functionality of a simple moving banner. On pressing the <b>Start Task</b> button, the banner message should scrollfrom right to left. On pressing the <b>Stop Task</b> button, the banner message should stop.Let the banner message be "Demonstration of Asynchronous Task".
	ASYNCHRONOUS TASK
	Start Task
	End Task
7	Develop an application that makes use of the clipboard framework for copying and pasting of the text. The activity consists of two EditText controls and two Buttons to trigger the copy and paste functionality.
	CLIPBOARD ACTIVITY
	Copy Text Paste Text
8	Create an AIDL service that calculates Car Loan EMI. The formula to calculate EMI is
•	E = P * $(r(1+r)^n)/((1+r)^{n-1})$
	where E = The EMI payable on the car loan amount
	P = The Car loan Principal Amount
	r = The interest rate value computed on a monthly basis
	n = The loan tenure in the form of months  The down payment amount has to be deducted from the principal amount paid towards buying the
	Car. Develop an application that makes use of this AIDL service to calculate the EMI. This application should have four EditText to read the PrincipalAmount, Down Payment, Interest Rate, Loan Term (in months) and a button named as "Calculate Monthly EMI". On click of this button, the result should be shown in a TextView. Also, calculate the EMI by varying the Loan Term and Interest Rate values.
L	Interest Rate values.

	CAR EMI CALCULATOR
	Principal Amount:  EMI: Result
	Down Payment:
	Interest Rate:
	Loan Term (in months):
Lob	Calculate Monthly EMI
Lat	oratory Outcomes: After studying theselaboratory programs, students will be able to
	Create, test and debug Android application by setting up Android development environment
İ	Implement adaptive, responsive user interfaces that work across a wide range of devices
	Inter long running tasks and background work in Android applications
	Demonstrate methods in storing, sharing and retrieving data in Android applications.
Des	Infer the role of permissions and security for Android applications.
	cedure to Conduct Practical Examination
•	Experiment distribution
	o For laboratories having only one part: Students are allowed to pick one experiment from the lot
	with equal opportunity.
	o For laboratories having PART A and PART B: Students are allowed to pick oneexperiment
	from PART A and one experiment from PART B, with equalopportunity.
zero	Change of experiment is allowed only once and marks allotted for procedure to be made of the changed part only.
	Marks Distribution (Courseed to change in accordance with university regulations)  Or For laboratories having only one part - Procedure + Evecution + William 12 - Procedure + William 12 - Procedure + P
	o For laboratories having only one part – Procedure + Execution + Viva-Voce: 15+70+15= 100  Marks
	For laboratories having PART A and PART B
	i. Part A – Procedure + Execution + Viva = 6 + 28 + 6 = 40 Marks
	ii. Part B – Procedure + Execution + Viva = 9 + 42 + 9 = 60 Marks
